Classes

Results will be calculated in such classes:

Open (O); Physically challenged (P); Junior (J) – born 2002 and later.

All courses are the same for all classes.

Result calculation and prizes

Results will be available online

Total PreO courses results will be calculated as sum of 2 days PreO courses.

PreO Sprint course results will be calculated as ... (to be set later, Bulletin 2)

Total Falco Cup result will be calculated ... (to be set later, Bulletin 2)

First 3 competitors in Total PreO and TempO and PreO Sprint courses and all classes will be awarded with event medals.

First 3 competitors in all Total Falco Cup classes will be awarded with event cups.

Registration and start fee

The registration to competitions that have WRE status is at Eventor:

[TempO course WRE](#)

[PreO2 course WRE](#)

Initially is presumed that all registered at WRE course will take part at all competitions. It will be great if you will give the information about your other starts by e-mail with Name, Surname, class and club (country) to:

oskfalco@gmail.com or andrius.jovaisa@gmail.com

Course price (EUR)	up till May 1	
	Adult	Junior
PreO 1	10	5
PreO Sprint	10	5
TempO (WRE)	20	10
PreO 2 (WRE)	20	10
All courses:	60	30

Payment will be acceptable in cash at competition event center or by bank transfer (to be received up till 5th of May).

Start lists

Preliminary start list of first day will be published at 05 May.

Adjusted final start list of each day will be published a day before competition day. Competitors that will be late at their start point or with late registration will have the opportunity to start after published start list ends at free order.

BIB numbers

The competitions will be held without bibs. The numbers will be printed only on backup cards so please show them to referees before you arrive on any TC/TempO stations for faster and smoother operation

Assistants

Competitor's own assistants are permitted and welcomed.

Paths will be of various quality, but all of them with hard surface. There will be some elevations and it will be few assistants at these points for those who will need.

Terrain and maps

Mainly open and semi-open terrain with middle sized landforms and lots of vegetation objects.

All maps: 1:3000, contour interval 2,0m, PreO1 and PreO2 - size A4, Sprint – size A5, waterproof, mapped at November 2021 - March 2022 by Andrius Jovaiša and Gintaras Mikolavičius. Latest laser scans (year 2020) is used in mapping process with contours 0.5m. All vegetation objects are precisely mapped. Green and white on yellow are separated with tinny 0,01mm black line for better map reading. See samples below.

As there are plenty of separate trees in terrain, there is a possibility that someone is missing in the map. I hope none. The symbol of prominent small tree (418) is used for a big variety of trees or bushes: starting 1,5m high tree. The symbol of prominent large tree (417) is used for really large and high tree. There are some tiny trees, so they can be detected hardly in some cases.

The competitions will be held in public areas with pedestrians and possible cyclists, so keep attention on the situation around you.

The map, backup card and solutions will be available only after the last competitor starts and they will be taken over by referees at finish.

Punching

ToePunch system will be used at **Pre01, Pre02 and Pre0 Sprint** competitions. In addition competitor will get a paper punching card at the start for backup punching which is not mandatory. Short instructions for ToePunch:

Each competitor will get a chipset in the start of Pre0, which contain the following chips: Info, A, B, C, D, E and Z. Before the start, competitor must clear all these tags in the clear/check-unit. At the start, competitor punches the info tag to the start unit. On the course, competitor punches with a tag marked with a letter to a unit assigned with the task number. At the finish, competitor will punch the Info tag using the finish unit. The chipset with stored data will be read with a mobile device that sends the punches to the server. The chipsets are not collected back from the competitors after Pre01 and the same should be used for Pre02 and Pre0 Sprint. Remember to take the chipset with you to all competitions. More information about the system: <http://toe.yq.cz/>

Result entering in **Temp0** competitions will be organized with mobile devices using ANT software and will be duplicated to paper card.

Answer procedures:

We would like to save overall time spent on Time Controls so referees will optimize procedures on TCs. They only ask you to choose loose or bound maps. They will expect that competitors will speak answers. When somebody wants to show answers please inform them immediately after arriving on TCs. Referees will show you all six flags and immediately start measuring time after sentence "Time starts now".

Courses

Course parameters and distances:

Pre01: 850m, 20-24 controls, elevation 10m. Event center, start and finish are in the same place, all controls are along the same route. 1 timed control before start with 3 tasks. The terrain, course planning and solutions will be quite similar as in Pre02, so it can serve as model for WRE.

Pre02 WRE: 1300m, 26-28 controls, elevation 35m. 2 timed controls: 1 before start, 1 after finish with 3 tasks at each.

In all Pre0 courses there is free order controls punching. Viewing points are situated along course in the controls number order.

Pre0 sprint: no information still.

Temp0 WRE: 5 stations, with 6 tasks each.

The event center is the same for Pre01 and Pre02. Event center for Temp0 is in different place, see the map. All distances to start are short ones. Pre0 Sprint course is straight afterwards Temp0 course.

In most cases decisions should be made by map reading. Sighting lines will be useful too as there will be many vegetation objects that can be used. We have done our best to map point features (trees and bushes) very precisely. Still it is possible that some of them are missed.

Mapper and course setter: Andrius Jovaiša

IOF Event Adviser: Zita Rukšane (Latvia).

Zero tolerance

Newly approved Guidance on zero problems will be used for Zero answers at all courses.

The guidance can be found here:

<https://onedrive.live.com/?authkey=%21AKttVYgKii2iyK4&cid=663580750D0C0BCE&id=663580750D0C0BCE%2147177&parId=663580750D0C0BCE%2118611&o=OneUp>

Jury:

Will be published at Bulletin 2.

Toilet:

There will be wheelchair accessible toilets.

Entering Lithuania and Covid19 requirements:

You can check last travel restrictions and requirements here:

https://europa.eu/youreurope/citizens/travel/travel-and-covid/lithuania/index_en.htm

There is the exception for high level sport events ("Falco Cup 2022" has this status as included in the official IOF calendar) participants not to have isolation if it is needed upon general restrictions.

Our health strongly depends on your behavior during the competition. If you are ill or have a temperature - it is forbidden to participate in the competition. Please keep a safe distance during the competition. We will have disinfectant and disposable masks at the starting point. It is not obligatory to wear masks during the competition, but it is preferred.
